

IYANUOLUWA DAVID ARIWODOLA

UI/UX DESIGNER

iyanuoluwaariwodola@gmail.com | LinkedIn: Iyanuoluwa Ariwodola | Portfolio: <https://yht6up.webwave.dev/>

PROFILE

I am a UI/UX Designer who views digital products through the lens of an Engineer. With a background in Electrical/Electronic Engineering, I don't just design for aesthetics, I design for systems, logic, and scalability. I specialize in turning complex user problems into clean, high-fidelity interfaces using Figma. Whether it's Web3 or Fintech, I'm focused on building products that aren't just beautiful, but technically sound and user-centric.

EMPLOYMENT HISTORY

Jul 2023 – Present

Freelancer, User Experience & User Interface Designer.

- Led end-to-end product strategy and roadmap execution, resulting in three successful product launches within 12 months.
- User Research: Conducted user research, including surveys, interviews, and usability testing, to understand user needs and pain points.
- Drove collaborative design efforts to implement a new design system and enhance product experiences across desktop and mobile platforms.
- Product Development: Worked closely with engineering teams to translate product requirements into technical specifications.
- Utilized data analytics to identify underperforming product funnels, leading to design improvements that boosted user engagement by 40%.

Dec 2022 – May 2023

Intern, UI/UX Product Designer, HNG, Lagos.

- Created UI design with the accountability of the design system to ensure consistency across all designs.
- Collaborated with product and development teams on core projects to improve product interfaces and experiences to improve user journey.
- Conducted user research to inform design decisions and improve usability.
- Implemented responsive design techniques to ensure mobile compatibility smooth user flow.
- Applied design thinking principles to solve user problems effectively.

Dec 2021 – Dec 2022

Brand Design Manager, Assurecondo, Lagos.

- Contributed ideas to brainstorming sessions regarding new products and features, submitted design ideas to plan projects.
- Designed new, on-brand visual elements focusing on concept and messaging.
- Created visuals concepts using computer software to communicate ideas that inspire, inform, or captivate customers.
- Leveraged proficiency in Adobe Photoshop, Corel draw, to design posters and other promotional materials to reach out to larger audience and increase engagement by 40%.
- Conducted user research to inform design decisions and improve usability.
- Applied design thinking principles to solve user problems effectively.

Jan 2020 – Dec 2022

Media & Publicity Manager, Redeemed Christian Fellowship, Ondo.

- Contributed ideas to brainstorming sessions regarding new features, programs, and submitted design ideas to plan projects.
- Designed and created social media contents to engage the church community.
- Created visuals concepts using computer software to communicate ideas that inspire, and inform church community.
- Leveraged proficiency in design software such as Adobe Photoshop, Corel draw, to design posters and other outreach materials to reach out to larger audience.
- Organized and planned church events for various programs. Produced and edited videos for church services.
